HEAT UP THE ENERGY SAVINGS

Heat Pump Water Heater Program

ENERGYWISESM
Use less. Spend less. Do more.

Deliver double the efficiency

For decades, electric water heaters were simply insulated tanks with a couple of electric resistance elements that heated the water.

Today, heat pump water heaters offer improved efficiency and increased energy savings compared to standard units. The benefit of a heat pump water heater is that you get at least twice as much hot water from each kilowatt-hour of electricity used as you get from a standard electric water heater. And, while a heat pump water system costs more upfront, the savings will pay back the difference in two years for a household of four.

Replace your aging electric water heater before it fails and start enjoying the savings right away.

DIRECT INCENTIVE

Heat Pump (HP) Water Heater

System Type	Incentive Criteria	Incentive Amount
Air Source HP Water Heater	UEF	\$400
Water or Ground Source Heat Pump Water Heater	COP > 2.8	\$650

(Geothermal desuperheaters that do not operate on-demand do not qualify)

You can also apply for a **low interest loan** through the Nebraska Energy Office's "**Dollar and Energy Savings Loan Program**" for your new qualifying heat pump water heater system. Visit neo.ne.gov for more information.

Incentives valid as of 1-1-2020. Subject to change without notice. Verify current incentive amounts and program information at www.nppd.com. These EnergyWise™ programs are only available to customers of NPPD and customers of its wholesale utilities.

HEAT PUMP WATER HEATER APPLICATION

Applications will only be processed if fully completed and signed. Once completed, submit application with proof of purchase to your local electric utility. Contact your local electric utility with any questions.

1) **Customer Name:** _____ **Utility:** _____
Account #: _____ **Phone #:** _____
Address & City: _____
Installation Address & City (If different than above): _____

2) **Contractor Information:**
Name of Contractor: (If applicable or note "self-installed"): _____
Address: _____ **City:** _____

3) **Equipment Manufacturer:** _____
Heat Pump Water Heater Model # _____

System Type	Incentive Criteria	Incentive Amount
<input type="checkbox"/> Air Source Heat Pump Water Heater	UEF > 1.9	\$400
<input type="checkbox"/> Water or Ground Source Heat Pump Water Heater	COP > 2.8	\$650

4) I acknowledge this installation is in compliance with the program guidelines.

5) Submit this application to your local utility for approval and processing for payment.

PROGRAM GUIDELINES

The following guidelines will generally apply. Exceptions will be handled on a case-by-case basis.

- All heat pump water heaters must be permanently installed.
- An incentive payment will be paid to the owner after the equipment is installed, operating, and tested by the installer to manufacturer recommendations. No incentive(s) will be paid without the completion of this application form. The application form must be signed by the installer and owner. This form will then be submitted to the owner's electric utility.
- Copy of sales receipt must accompany application.
- Program is subject to the Terms and Conditions as outlined on the application and general program guidelines.
